QWISE-FM-SBJSGC-2019-SCS

Company Standard

Hunan WISE New Material Technology Co., Ltd.

Powder sub-factory

production process equipment safety technical regulations

Three-layer reciprocating screen safety technical regulations

- 1、 Wear the overalls and wear dust masks and ear protectors before operating.
- 2、 Before starting the machine,the shuttle screen should be thoroughly inspected and confirmed to be normal before operation.
- 3、 Each layer of screen is selected to be compatible with the particle size of the material being produced.
- 4、 When sifting the sieve,pay attention to the screen frame and the screen frame to prevent the screen frame from being stuck,and then put the bolt on the bolt.
- 5、 Start the round-trip sieve.After the equipment is running normally,the material can be cut and sieved.When the material is cut,the material should be evenly distributed on the screen.
- 6、 It must be shut down when cleaning,checking,and handling equipment failures.
- 7、 When the equipment is running,it should be stopped immediately and found to be abnormal.If necessary,notify the maintenance personnel.
- 8、 It is forbidden to replace the screen frame while the equipment is running.
