production process equipment safety technical regulations

Roots blower safety technical regulations

1、Wear overalls before operation.Wear masks when sampling.Do not wear high heels and skirts to enter the production site.

2、Sampling:

2.1 Operate strictly according to the operation instructions;

2.2 When using the electric hoist to move the drum, follow the "Safety Operation Procedure for Electric Hoist". Do not stand on the lid or lifting ear;

2.3 Sampling is strictly prohibited at the site where materials are being hoisted.

3、Analysis:

3.1 Operate in strict accordance with the work instructions.

3.2 When there is an abnormal sound or smell of burnt smell, stop immediately, check the cause or report to the technician. When inspecting, changing water, maintenance, and maintenance of the instrument, the power must be disconnected. When water is changed, water is not allowed to penetrate into the motor.

3.3 When the power switch of the instrument is not working, notify the electrician to handle it. It is strictly forbidden to handle it yourself.

4、Others:

4.1 Maintenance instruments (such as maintenance parts, water changes, etc.) must be present to avoid damage to the instrument and personal injury.

4.2 After the daily operation, carefully clean the instrument and the environment. Non-operators must not start the instrument.
