**Hunan WISE New Material Technology Co., Ltd. Release**

# **QWISE-FM-SBJS GC-2019-QM**

## **Company Standard**

**Hunan WISE New Material Technology Co., Ltd.**

---

### **Powder sub-factory**

#### **production process equipment safety technical regulations**

#### **Vibrating screen safety technical regulations**

- 1、Wear overalls, work shoes, gloves, and dust masks before operation.
- 2、Before starting, check whether the screen is in good condition, whether the equipment is in good condition, and whether the receiving barrel is docked with the bottom of the vibrating screen.
- 3、When loading, the bin lowering port must be closed first, and the drum should be placed safely on the bin. Do not press the electric hoist power cord. Do not remove the electric hoist from the bucket hoist. The use of electric hoists must follow the "Safety Technical Regulations for Electric Hoist". Do not stand next to the vibrating screen when dip.
- 4、During the operation of the equipment, it should be checked frequently, and the abnormality is immediately dealt with according to the procedure.
- 5、If the screen breaks during operation, the screen material must be re-screened and the screen must be shut down first. When the vibrating screen is running, it is not allowed to touch the rotating part by hand or tool.
- 6、Always check that the fasteners are secure.
- 7、Do not touch the electrical switch with wet hands or metal objects.
- 8、Every class should be cleaned of equipment and on-site hygiene, kept clean and tidy, and tools, materials, etc. should be placed according to regulations.
